1. Tested to B50 L70 requirement. LED lifetime means the length of time (in hours) until half of the LED light sources maintain at least 70% of their initial lumen output (B50, L70).

**W** = Wet location **E** = Suitable for enclosed fixtures

## MasterClass Grow PAR lamps

Philips plant grow light mimics the sun's spectrum and provides the optimal light spectrum, that which is closest to a plant's natural environment.

Full light spectrum is needed to help grow plants that are strong and vibrant. Additionally, the 50° narrow beam angle evenly lights the whole plant with the appropriate amount of intensity promoting optimal health growth.

Product features:

- 92CRI
- Low heat emission
- High Photosynthetic Photon Flux Output
- Uniform beam distribution
- UL wet design suitable for both indoor and outdoor applications
- 25,000 hours<sup>2</sup>
